

Aphromax

Nerve Stimulant

Description:

Capsule Afromax is a scientifically prepared modern Unani medicine with valuable natural ingredients for nerve stimulation. Afromax's formulation contains the active chemical ingredients - Embrane, Epicoprostanol, Coprostanol which increase the levels of anterior pituitary hormones and testosterone hormone in the human body. It increases nitric oxide synthesis, sends a kind of stimulation to the smooth muscles of the endothelium of blood vessels, increases blood flow in the blood vessels, accelerates the process of sexual stimulation and helps in erection of the penis. The active ingredient of Rumi Mastagi is masticin which helps in cholesterol or fat metabolism, reduces high blood pressure and reduces the risk of heart attack. The active ingredient of clove is eugenol which is very effective in preventing premature ejaculation. Capsule Acromax is easily absorbed by the body's tissues and is a more effective nerve stimulant.
