

# Femirex

Effective for Irregular menstruation, Leucorrhoea & Uterine Disorder

## Description:

Femirex syrup is a unique unani medicine prepared from combination of valuable medicinal plants such as *Saraca indica*, *Withania somnifera*, *Abroma augusta*, *Rauwolfia serpentina* which is highly effective in curing various gynecological diseases including uterine weakness. *Withania somnifera* is highly effective against bacteria and fungi due to its lactone. Also lactone is beneficial for irregular menstruation. Tropane alkaloids and ethanolate develops antibiotic activities against *Trichomonas vaginalis* and *Candida albicans* as a result cured Leucorrhoea. Femirex increases the strength and function of the nervous system, maintains the normal functioning of the uterus and increases sexual desire. Femirex has been long faithfully used to treat all kinds of menstrual problems. It maintains the normal secretion of female hormones. Regular use of Femirex cures irregular menstrual periods in women and promotes good sleep. Femirex contains sufficient amount of iron which increases the level of hemoglobin in the blood and helps to cure anemia.
