

Fevmin

Anti-Pyretic

Description:

Fevmin Syrup is a sedative, fever, measles, chickenpox, long-term fever or typhoid fever killer. Fevmin Syrup is a balanced combination of Khaksi, Onnab, Fennel and Gojban. The active ingredient of Fevmin Syrup is the active alkaloid sinigrin of Khaksi or Bansarisha, which is effective against typhoid and paratyphoid bacteria *Salmonella Typhi* and *Salmonella Paratyphi* and acts as a fever reducer. In addition, the active alkaloid zizyphic acid of Onnab acts as a sedative, fever and influenza killer, expectorant and bile suppressant. It works against disease-causing viruses and bacteria. Fevmin Syrup is a diuretic, anti-inflammatory, liver and stomach strengthener. Fevmin Syrup increases the body's immunity.
