

Livoliv

Effective for Liver Disorders and to Protect the Liver

Description:

The active ingredients of the herbal ingredients used in Livoliv syrup, betaine, inulin, remove excess bilirubin from the body, as a result of which the bilirubin level decreases and jaundice gradually improves. The rinolic acid in Livoliv reduces the tension of the liver cells and ducts and makes the cells strong and fresh. The extract of Gojban used in it has antibiotic activities which destroys the toxins and waste products. Livoliv increases the amount of urine and helps to remove excess water from the body, that is, it can be used in cases of edema or edema. The herbs used in it, 'Anthronols', play an effective role in purging and constipation.
