

# Garlix

Effective for High Cholesterol

## Description:

The main ingredient of Garlix Tablet is the active alkaloids of garlic which work against allyl bacteria. Garlix removes uric acid from the body through urine, thus relieving the pain of arthritis. It controls diabetes and high blood pressure and reduces cholesterol. Nutmeg's nicotinic acid, riboflavin cure stomach pain, nausea and loss of appetite. Garlix Tablet reduces excess cholesterol in the blood and ensures pure blood supply to the heart.

## Ingredients: Each tablet contains:

<i>Allium sativum</i>	30 mg
<i>Allium cepa</i>	20 mg
<i>Syzygium cumini seed</i>	20 mg
<i>Mangifera indica</i>	20 mg
<i>Myristica fragrans fruit</i>	10 mg
<i>Syzygium aromaticum</i>	10 mg

And other ingredients (Source: Garlitab, or JEF) Unani medicine
