

Pepgin

Stomach Tonic & Digestive

Description:

Pepgin tablet enriched in several essential natural herbs. It has been recognized for hundreds of years that papaya is effective in curing many diseases. It is very beneficial for digestion, removes harmful intestinal components and excess acid from the stomach. Papaya is rich in vitamin C, E and Folate which helps in constipation and its antioxidants boost the body's immune system. *Zingiber officinale* (Ginger's) active ingredients help in digestion; act's as an antiseptic and strengthens the digestive system. *Piper nigrum* (Pepper) also helps in the production of enzymes or hormones required for digestion which increase the digestive capacity of the pancreas and liver by breaking down the food into smaller portions and its various components prevent gas in the stomach.
